PRODUCT DESIGN WORK EXPERIENCE

X, the Moonshot factory (previously Google X)

Mountain View, US; July 2024 - Now

[Climate & Energy](#) [AI-products](#) [Desktop App](#) [Data visualiztion](#)

- Leading UX design for GridOps App from zero to one at Tapestry, a project at X, that is building AI-powered products for a greener and more reliable grid
- Virtualizing grid system from raw data to informative and actionable dashboards
- Leading design pitch for new contract with Chile’s National Energy Coordinator

WorkSpan

San Francisco, US; April 2021 - Dec 2023

[B2B](#) [CRM](#) [Cloud Marketplace](#) [Design System](#) [Mentorship](#)

- Led Marketplace Accelerator App from ideation to launch, a new service at WorkSpan, that received good impact at AWS Re:Invent with pre-sales
- Unified design language and information architecture across all WorkSpan Apps
- Led high-priority design initiatives such as new user onboarding, SSO redesign, integration with Salesforce and Inline Edit for data table
- Hired and mentored interns, and helped grow our design team

Futureform Lab

Vancouver, Canada; Dec 2020 - April 2021

[Consulting](#) [Mobile App](#) [Desktop App](#) [UX Research](#) [Client-faced](#)

- Led innovative design consulting projects at Futureform lab, a design consulting studio, for clients from sports, note-taking an AI Chat
- Collaborated closely with clients’ in-house teams on design implementation
